(3) Two longitudinal seats (foldable if need be) in the body.

(4) One door with two shutters at the rear.

(5) Expanded metal fixed shutters for the windows on either side and the door shutters.

(6) Foldable and detachable metal stone guards for the windscreen for cabs glassed shutters, for front head lights, etc.

Note.—If required, the expanded metal windows for the body should be made in such a manner as to fold the upper half inwards.

Dimensions—Overall length of the body ... 15′—6″ } Approximate.
Internal width ... 6′—3″ } Approximate.
Internal height .. 5′—6″ } Approximate.

Construction.—The cross bearers should be fabricated out of 2″×2″×¼″ M.S. angle fitted with venteak inserts and the roof sticks to be of 1½″×1½″×1/8″ M.S. angles fitted with veteal fillets to enable shaping and panelling. The entire body frame should be bolted and welded wherever necessary and painted with anti-corrosive paint.

Flooring.—Teakwood planks of 1″ thick to be screwed down to the cross bearer fillets and covered with bitumanastic felt to make it dust-proof metal sheeting should be used for flooring.

Panelling.—Exterior panelling is to be of 20 G.M.S. Sheet nailed to the timber fillets and with suitable mouldings at the joints.

Driver's Compartment.—This is to be built integral with the body. A Composite partition to be provided to the full height with a fixed type expanded metal window in the centre of the partition.

The driver's and the five seats behind to be provided with comfortable leather cushions.

Doors.—Full doors on either side of the driver's cab are to have windows having triplex glass shutters operated by winding regulators and fixed on stout iron hinges at the front with slam locks, and chemium plated door handles. Rubber buffers guides to be provided to prevent rattling.

The rear doors with fixed expanded metal windows shall be provided.

Windows.—The windows are to have expanded metal shutters sufficiently reinforced for rigidity. Rain shield and water channel shall be provided over the windows.

Roof.—The centre of the roof will be of teakwood plank ½″ of 5/8″ thick. There shall be bitumanastic treated felt over the timber ceiling and covered with G.I. Sheets to make the top leak proof.

Side curtains.—Water proof roll up khaki canvas curtains shall be provided for all the windows with necessary leather straps and turn buttons.

Fittings.—1. A locker at the near side below the floor level.

2. Two longitudinal seats foldable in the rear compartment with cushions.

3. One folding step at the rear.

4. Two Nos. Rifle shands with leather belts in the cab.

5. One R. V. Mirror.

6. Stone guards for W. S. Glasses, Door Glasses and head lights.

7. Petrol tank to be suitably covered by mess.

Painting.—All steel works are to have coat of anti-corrisive point. The vehicle should be painted with primer puttyed up and filler and given two coats of blue colour synthetic enamel. The interior should be painted with light blue colour.

Lettering.—The letters "Government of Mysore, Police Department" have to be carved on the head of the vehicle above the front glass and the monogram on the side.
